3. Some time ago, I asked O/CI to make an informal check of security conditions in these Offices as I felt that the original arrangements were no longer fully applicable. 4. [redacted] Office of Training, sent a copy of a proposed regulation regarding basic training and asked that the DD/I look it over prior to its submission to the next meeting of the Agency Career Service Board. This was done and one change suggested. This change made firm the fact that the Deputy Director concerned would make the final determination in the event that an Assistant Director requested that basic training be waived for one of his new employees and when the Director of Training did not concur with this request.
